

1	Supplier				1000000
2	Model				2000/100/1.4
3	Energy Efficiency Class				A
4	Power	1	2	3	4
5	On Mode power consumption (W)				15
6	Annual Energy consumption (kWh)				15
7	Monthly Mode Power Consumption (W)				1.4
8	Off Mode Power Consumption (W)				0.4
9	Power Reduction				(15W + 0.4W)

* Energy consumption per year, based on the power consumption of the machine operating 4 hours per day at 365 days.
 The actual power consumption will depend on how the software is used.
